Shout out to
Jennifer Hock at
Illumination Learning
for creating this

Using a map of the world, ask your child to locate India by pointing to it. Next, ask your child to locate Kolkata. Explain to them that an Orthodox orphanage for girls is located here. A nun, Sister Nectaria, lives there and is now the mother to many Indian girls who now live there with her because their parents passed away. It is very important for us as Orthodox Christians to help out others who are less fortunate than ourselves.

Discussion: Ask them how can we help them out?

Share Answers: Some of us become missionaries and go to poor countries to help out with the talents God has given to us. We can say a prayer for those less fortunate than ourselves during our family prayer time. We can also send money to these places so they can buy food and supplies they need to survive.

Homeschool Unit Math

1. Your priest requested everyone in the parish to donate some money to the Orthodox orphanage in India to help them purchase a new water well. The tray was passed to every family in attendance. The following Sunday, your priest happily announced that the 100 families at your parish raised all of the \$4,000.00 needed. How much money did each family donate for the water well? _____
2. If 1 U.S. dollar equals 45 Indian rupees, how much would 50 U.S. dollars be worth in Indian Rupees? _____

Homeschool Unit Reading and Writing & Science

Reading and Writing

- Take a trip to the library and look up books about India. Learn about their culture, geography, foods, and more!
- Write a summary or story about what you've learned about India.
- Expanding the Activity: Create something you've read about - an Indian meal, draw an Indian artistic design, or learn some Indian words.

Science

- How does a water well work? Find out more at <http://www.gnb.ca/0009/0371/0012/0002-e.asp>
